GRAPHIC INSTALLATION

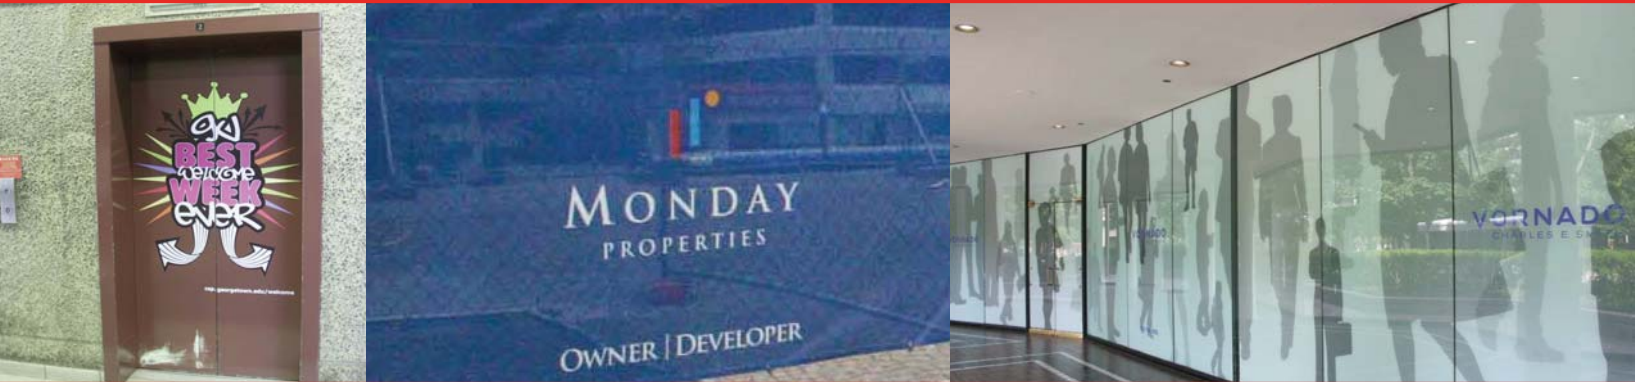

IMAGINATION + INNOVATION IN GRAPHICS

EPI-Colorspace

ON-SITE. ON

Indoors or out, EPI-Colorspace has the ability to bring your vision to reality - to install your graphics with the eyes of an artist, and the skills of a craftsman.

From your design or ours, EPI-Colorspace is uniquely qualified to coordinate the expert digital output, professional finishing and skilled on-site installation of your display graphics. You'll find our work in Lobbies, Conference Rooms, Media Centers, Retail Centers, Museums and National Parks.

Actually, we often find ourselves involved in the earliest planning stages for projects like those pictured here. Our advice and counsel is an important part of the value-added proposition to be experienced when you partner with EPI-Colorspace.

Our staff is prepared to meet your graphic installation challenges in new and creative ways. Our advice? Spend some time with our team, review our graphic installation portfolio, and ask EPI-Colorspace to assist with your next project.
