

ALUMINEX

from EPI-Colorspace

Imagination & Innovation in Exhibit Systems & Displays

A DRAMATIC Look

AluminEx, from EPI-Colorspace, provides a sophisticated, versatile, custom solution for tradeshow exhibits. Large eye-catching graphic panels combine with an attractive aluminum frame provide you with a more distinctive and dynamic look enhancing your tradeshow presence.

Features such as flexibility, portability, and easy set-up, when combined with expert design, precise manufacturing and exciting graphics will create a dramatic and effective display.

LIGHTWEIGHT & Easy TO SET-UP

Constructed with lightweight extruded aluminum components in various shapes and configurations, an AluminEx display is easy to assemble – it requires just an Allen wrench.

When compared to a laminated exhibit system, your booth will weigh less and cost less to ship.

AluminEx provides you with:

- A Dramatic Look
- A Lightweight and Easy to Set-Up Display
- Unparalleled Versatility for Inline Island Exhibits
- Unlimited Choices

ALUMINEX, FROM EPI-COLORSPACE,

UNPARALLELED Versatility

With AluminEx, your display can grow as your exhibit needs grow. Your AluminEx 10'x10' display can be expanded to an exciting 10'x20' display.

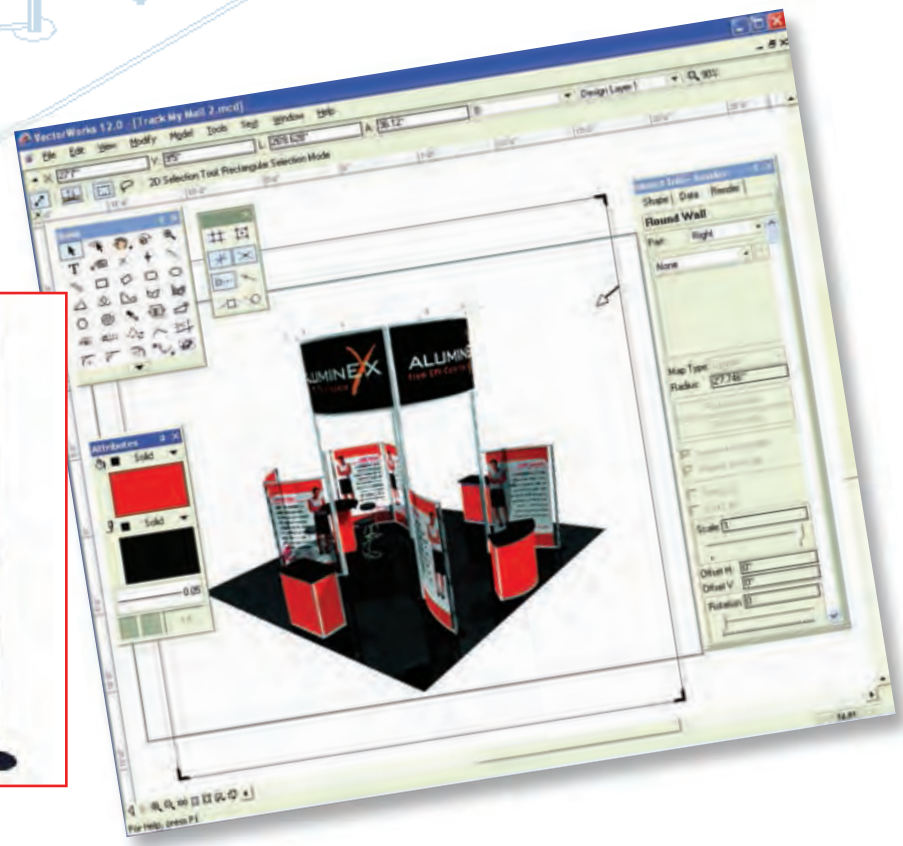

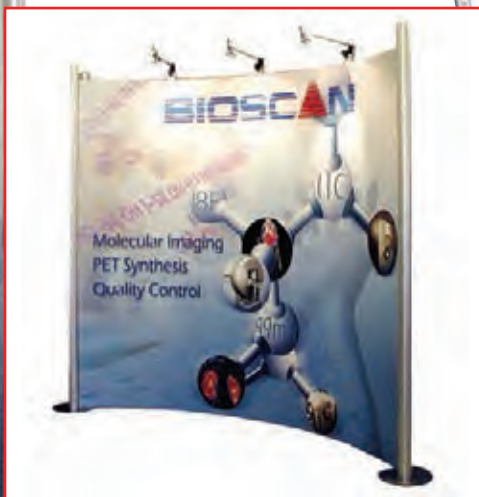

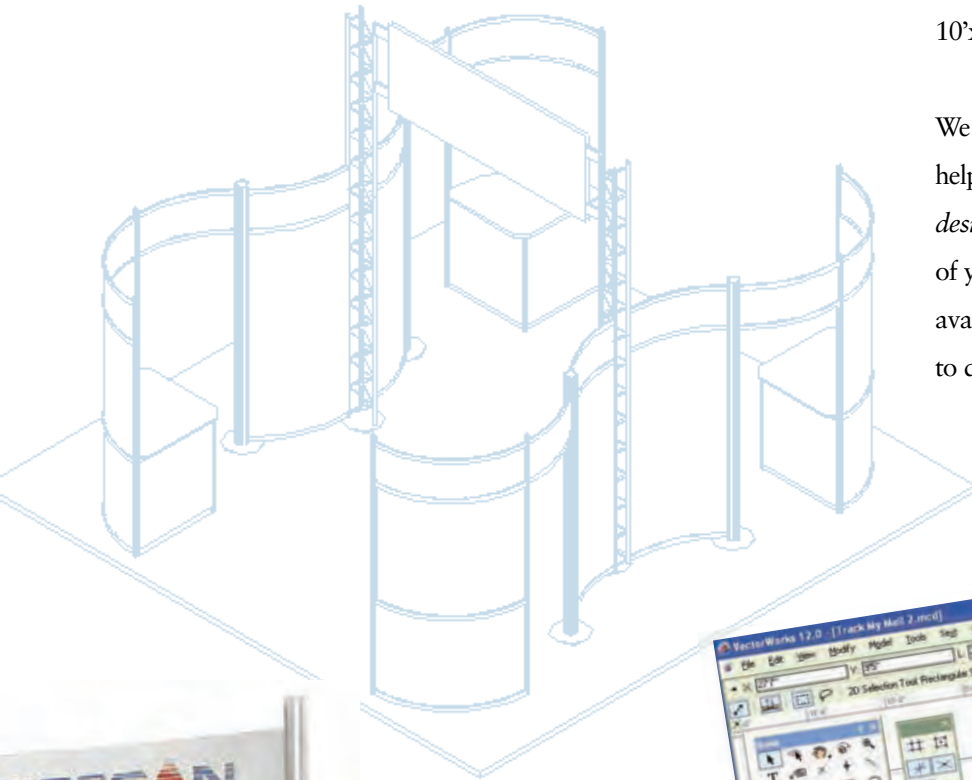

The unique flexibility of the aluminum structure allows you to easily add components and increase the size of your booth. You can then reconfigure the booth layout to accommodate different tradeshow environments.

UNLIMITED Choices

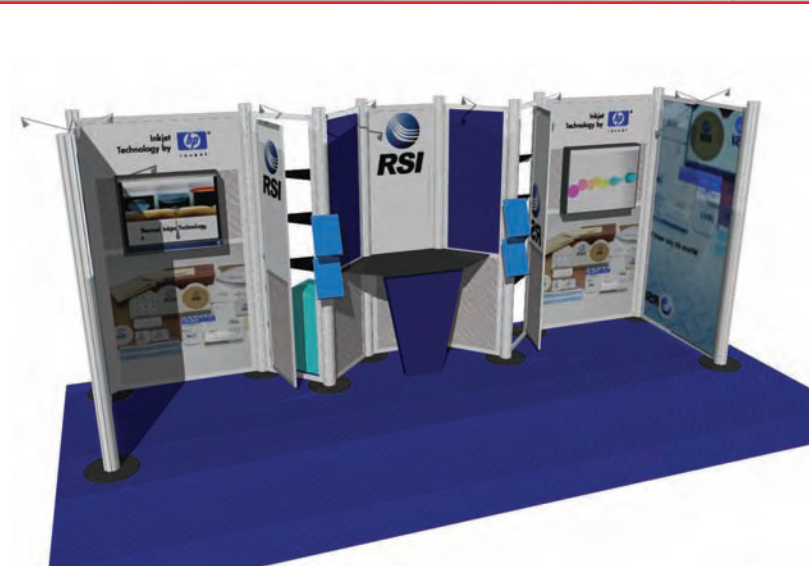

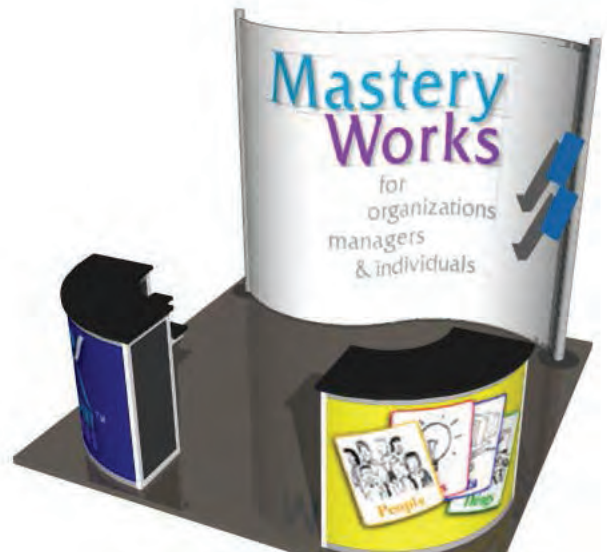

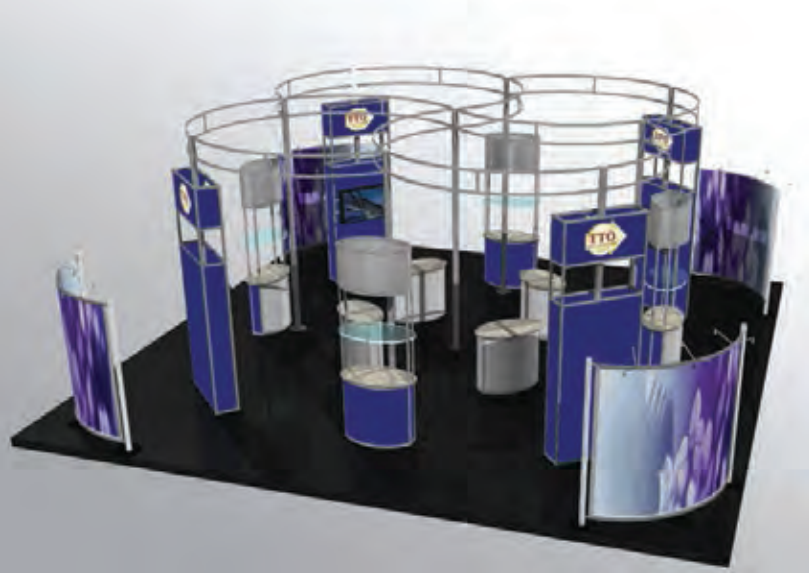

AluminEx is more flexible than other modular displays, giving you many options for attaching flat screen monitors, product shelving and demo counters.

With AluminEx, we can help create a new exhibit booth that fits your specific needs. We are just as flexible as the AluminEx system. There are many affordable pre-configured exhibit kits available for 10'x10' and 10'x20' displays, as well.

We realize that some exhibit solutions will require the help of our exhibit design team. Using *computer-aided design*, you'll be able to see the unique configuration of your new booth and explore the many options available. Just give us a call and let us work with you to design that perfect display.

is the sophisticated, versatile, custom look for tradeshow exhibits.
